No person who contemptates purchasing a Seming Machine for Family or Manufacturing purposes, should fail to send for one of our Circulars, which contains gute and full descriptions of the several etylerated expelles of work, all of which we send by mail free. We claim to have the

Best Sewing Muchine in the World For Either Family or Manufacturing Purposes,

And at we ask is a fair trial. Read the following : IMPORTANTFACTS.

FACT No. 1 — This Company being duly license-heir Machines are protected against infringement

FACT No. 2.—There Machines make the lookstitch, alike on both sides—and use a little less than half as much thread and silk as the chain or loop-Fact No. 3. These machines are better adapt.

Fact No. 3.—These machines are better stapted than any other sewing machines in the market to the frequen changes and almost endless variety of sewing required in a family. They will sew from one to twenty thicknesses of Marseilles without stopping, and make overy stitch perfect. They will even sew from the facet game to the heaviest cloth, and even stout, hard leather, without changing the feed, needle, or tension, or making any edjustment of the machine whatever. Is not such a machine best adapted to family use? and if best adapted to family use? I and if best adapted to family use? I and if best adapted to family use, why not for every variety of light sewing manufacture? For work too heavy for our Family Machines we recommend our larger sizes.

Fact No. 4.—These machines make the most elastic seam of one a wing machine in use—a fact of very great importance in scarning stastic goods, or goods of any kind on a bins.

Fact No. 5.—No machine is more durable or more simple in its construction, or more early undersion. The reputation of these machines wherever used will fully demonstrate each of the above facts.

Fact No. 6.—These machines took the highest premium at the Franklin Institute, Philadelphia Fact No. 7.—These machines took the highest premium at the New Jersey State Fair.
Fact No. 8.—These machines took the highest Medal at the American Institute in the city of New York, together with the highest premium for fine Sewing Machine work.
Fact No. 9.—These machines took both the highest premium at the Mechanics Fair, Utien, N. Y.

FACT No. 10 — These muchines can do the stree thing generally, whenever properly exhibited in competition with other first-class sewing machines.— But we have space for only one more fact—it is the PACT No. 11-We sarrant every machine

ill to give better satisfaction than any other sewing schine in the market, or money refunded.
